

## Aspartame Awareness Month – From: Stephen Fox, Mission Possible New Mexico

Those dutiful readers over the past 30 years of Mission Possible World Health International fully comprehend the long overdue and obvious necessity of educating every person as to why they should not consume Rumsfeld's Plague, aspartame/methanol/formaldehyde, because of the irreparable and permanent damage it does to both the ribonucleic and deoxyribonucleic acid, the double helical spiral as discovered by Watson Crick and the British radiographer Rosalind Russell.

Rumsfeld's obscene and deranged predilection for chemjabs goes back to the Hong Kong Avian flu, Gilead Rumsfeld's genocidal chemjab corporation and the Swine Flu chemjabs killed more people than the Swine Flu ever did. The precise process of how the genocidal chemjab corporations forced the FDA to approve adding known toxic chemicals like ,for example, mercury/thimerosal, aluminum, formaldehyde and aspartame, antifreeze, (ethylene glycol) and many others is not always known --- All of this should be thoroughly examined in the US Senate Judiciary Committee. In televised hearings it would make the Kavanaugh Supreme Court hearing like child's play.

In 1942 in a Berlin Superb gestapo officials planned how to kill 6 million European Jews with a rodenticide, Zyklon B which, when immersed in water released a gas, and many of those executives in I. G. Farben corporation which also built the "concentration camps" - many of those executives were released by the "Allied command" to join the Board of Directors of Bayer - later Bayer/Monsanto. Clearly we have to thank two prosecutors at the International Criminal Court: Fatoubensouda (former minister of justice in Gambia, and Karim A. A. Khan, the present British born Pakistani.

Despite Rumsfeld dying on June, 2021 his despicable legacy lives on in 10,000 USA pharmaceuticals and at least 16,000 USA manufactured food products, apparently with the concurrence of the Ajinomoto corporation and with the concurrence of Naruhito, Emperor of Japan. Fortunately in this September Aspartame awareness month 2022 the 77th general assembly will have before it my plan to create an under secretary general for nutrition, consumer protection

longevity. If you can understand how this works send your letter to the Honorable Antony Blinken USA Secretary of State, 2201 C Street, Washington, D.C 20250 and to the Honorable Linda Thomas - Greenfield USA/UN Ambassador, 799 UN Plaza, New York City, NY 10017. This secretariat will continue to be built in Santa Fe, New Mexico rather than New York City. Mr. Fox is available for news venues and discussions on this plan with journalists at 121 San Francisco, Santa Fe, New Mexico 87501 505 983-2002. I cordially thank Dr. Russell Blaylock, Dr. Kenneth Stoller, Dr. Hyman J. Roberts, Jerome Bressler, Dr. Adrian Gross, Dr. Betty Martini, Dr. Woodrow Monte, Dr Maria Alemany, Dr. Ralph Walton and their majesties Felipe 6 and Queen Letizia of Spain.

The 77th general assembly must sever ties with the World Health Organization because both its major donor (200 million dollars) , William Henry Gates, III and WHO's Ethiopian Director, were both indicted for genocide on December 6th 2021 as were the CEO's of Pfizer/mode/RNA, Astra Zenica, Johnson and Johnson and Klaus Schwab. For details don't use Google use duckduckgo. This search engine does not have tracking; use these search terms Gates, Fauci, genocide and Desert Review which has a link to the 46-page indictment of 16 genocidists. Boris Johnson was the first one on the list and it only took 7 months and 1 day from his indictment to his resignation.
